Field User Training
FY2012 Data Call

Training Outline

- Purpose of Report
- User Roles
- System Improvements
- Logging On and Registration
- Data Entry
 - Solid Waste Management
 - Printing and Finalizing Data

2

Welcome to the training

You are welcome to leave the training after your relevant section has been discussed. However, the Bureau and Office Central Office and HQ users should listen to the entire presentation

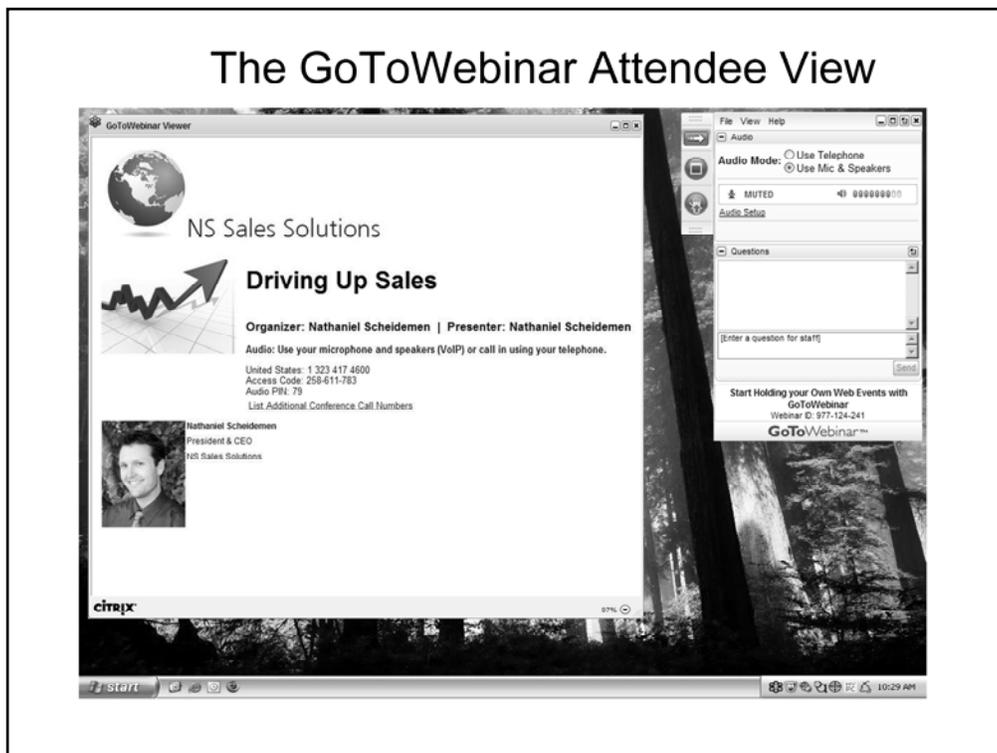

The B/O Central Office user session will follow this one

Presenters

Environmental Management Integration Team
Office of Environmental Policy and Compliance

Interior Business Center

The GoToWebinar Attendee View

Before we get started, I want to review a few housekeeping items and let you know how you can participate in today's Web event.

We're looking at an example of the GoToWebinar Attendee Interface which is made up of two parts. The Viewer Window on the left, which allows you to see everything the Presenter will share on their screen, and the Control Panel at the right. Within that Control Panel is how you can participate in today's event, so let's look at that.

(Transition to Next Slide)

How to Participate Today

- Open and close your Panel
- View, Select, and Test your audio
- We will not be using the “raise your hand” feature
- Q&A addressed at the end of each section of the presentation

Move mouse over the Grab Tab

Clicks 1, 2, and 3

By clicking the orange arrow, you can open and close your control Panel

Click 4

From the View Menu you can also set the Control Panel not to auto-hide when inactive if you prefer to keep it always open.

Click 5

The Audio pane provides audio information. (If the organizer has given attendees a choice) By default you have joined the Webinar via Mic & Speakers.

Click 6

Click Audio Setup to select your computer speaker or headset devices.

Clicks 4, 5 and 6

If you prefer, you can join the audio via telephone by selecting Use Telephone, and the dial-in information will be displayed, including an Audio PIN. If you would like to ask any questions of today’s presenters over the phone, you must enter your Audio PIN in order to have your line unmuted.

Click 7

During (at the end, etc.) the presentation, you have the ability to send questions to our Webinar staff through the Questions pane. Simply type in your question and click send. (Optional) At the end of the presentation we will do a Q&A session to answer as many questions as we have time for.

Click 8

During the presentation we may ask you to answer a question by raising your hand. This option is located on the Grab Tab. (Optional) You can also indicate that you have a question and would like your line unmuted by raising your hand.

Click 9 and 10

We will address Q&A at the end of today’s session, and as a final reminder, today’s Webinar is being recorded, and everyone will receive an email within 24 hours with a link to view a recording of today’s event.

Training Norms

- All of the phone lines are muted.
- Please submit questions through the “Questions” area.
- We will respond to questions at the end of each training section.
- You may leave the training after the sections relevant to your work have been discussed.

6

-However, the Bureau and Office Central and HQ users should listen to the entire presentation.

-The Bureau and Office Central Office users training session will follow this one.

PURPOSE OF REPORT

Katie Chiang
Environmental Protection Specialist
Environmental Management Integration Team
Office of Environmental Policy and Compliance

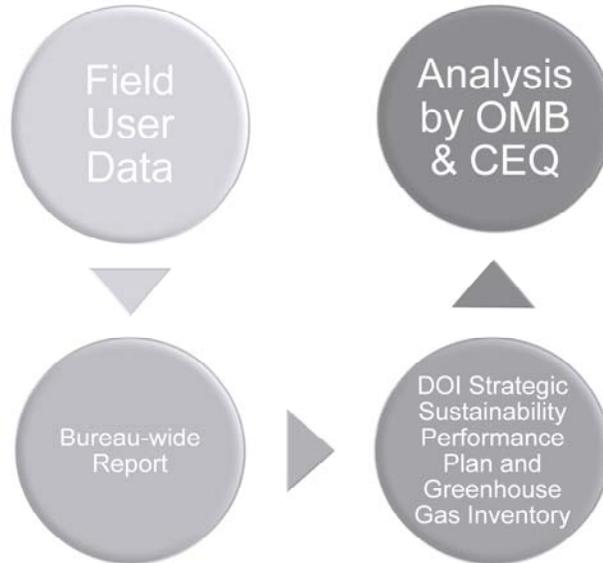

Purpose of the Report

- Data are needed for a mandated report to the Office of Management and Budget and the Council on Environmental Quality
 - Annual update for the DOI Strategic Sustainability Performance Plan
 - Annual DOI Greenhouse Gas Inventory

- Questions address:
 - Executive Order 13514 - Federal Leadership in Environmental, Energy, and Economic Performance
 - Solid Waste and Chemicals Management
 - Resource Conservation and Recovery Act
 - Pollution Prevention Act of 1990

The Process

How is your data used?

9

The data input from Field Users are compiled in the Bureau-wide Report. The Bureau and Office Reports are then used to develop the updated Department's Strategic Sustainability Performance Plan (SSPP) and the Greenhouse Gas Inventory. The SSPP is submitted to the Office of Management and Budget (OMB) and the Council on Environmental Quality (CEQ). If you are not familiar with them, but OMB and CEQ are part of the Executive Office of the President.

Sustainable Practices Database

- The Sustainable Practices Database is located at <http://www.nbc.gov/spreport/>
- Field User questions are a *subset* of the OMB data call
- 16 solid waste questions
- Data entry should take 1 hour or less if data is readily available

10

System only includes those questions for which data depend on field responses

USER ROLES

Katie Chiang
Office of Environmental Policy and Compliance

Here you can see the different layers of users.

More on Roles

- “Central Office” - second-line program contacts in your region, area, or state office.
- At each level, there is a “solid waste manager.”
- Central and HQ roles perform data quality review of field data.
- Managers track report status for individual facilities.

Data Quality Assurance

Status Reports

SUSTAINABLE PRACTICES DATABASE

Home | Facility Data | **Reports** | Bureau Report Generator | Admin | Help | Logout

Status Report for Solid Waste Management

Facility	Started	Email
OS	4 of 12 (33 %)	
HQ	4 of 12 (33 %)	
District Office	✓	Email
OEPC Albuquerque Regional Office	✓	Email
OEPC Anchorage Regional Office		Email
OEPC Atlanta Regional Office		Email
OEPC Boston Regional Office		Email
OEPC Denver Regional Office	✓	Email
OEPC Headquarters	✓	Email
OEPC Oakland		Email
OEPC Philadelphia		Email
OEPC Portland		Email
Other		Email
Program Office		Email

*Sample data only in this presentation, not actual data

15

In the “Reports” tab, Central Office users may track the progress of individual facilities. Select “Status Report for Solid Waste Prevention & Recycling” from the list of options. The first column shows the name of the facility. The second column shows whether the facility has started entering data. The third column shows whether a draft of the data is complete. The fourth column shows whether that draft has been approved by the Central Office. The fifth column shows whether HQ has approved the data. If a facility has started its data entry but it is not complete, the Central Office may email the contacts for that facility to inquire as to the progress of the facility’s data entry.

****Please Note that all of the data shown in this training are just for demonstration purposes and are not actual data reported by facilities ****

Questions?

SYSTEM HIGHLIGHTS

Katie Chiang
Office of Environmental Policy and Compliance

System Highlights

Data Requested	- Only solid waste and chemicals management data requested
Navigation	- Left navigation bar shows all report sections - Useful links to Bureau Contacts and Previous Year's Data - Facility notes to help you enter data next year
Historical Reports	- Access data for FY 2006-2011
User Registration	- System checks for existing accounts to avoid duplication

Navigation

The screenshot shows the 'Sustainable Practices Database' interface. At the top, there is a navigation menu with 'Home', 'Facility Data', 'Reports', 'Bureau Report Generator', 'Admin', 'Help', and 'Logout'. The 'Facility Data' tab is selected. Below the menu, the breadcrumb trail reads 'Home > Facility Data > Solid Waste Management'. The main content area is titled 'SOLID WASTE MANAGEMENT' and 'Facility: OEPC Albuquerque Regional Office'. It contains a form for 'A. Solid Waste Prevention' with several questions and radio button options for 'Yes' and 'No'. A note states: 'Note: You must click on "SAVE" below or your data will be lost.' Callout boxes with arrows point to various parts of the interface: 'Left navigation' points to the left-hand menu; 'Click here for your bureau contacts' points to the 'Bureau Contacts' link; 'Link to your 2011 data' points to the '2011 Solid Waste Data' link; 'Your current location within the system is shown here' points to the breadcrumb trail; and 'Your facility name is shown here' points to the facility name.

18

Here, the “Facility Data” tab has been selected.

Within “Facility Data” we are looking at “Solid Waste Management” as indicated towards the top of the page.

The system has a left-hand side navigation bar, which only lists solid waste management sections of the report. The current data call does not include a request for green purchasing data.

The user would complete each item under Solid Waste Management to complete the report.

Note the following on this page:

- Link to bureau contacts for more information on how to complete this report
- Link to your 2011 Solid Waste Data

Solid Waste Reports - Historical Bureau Data

Report only includes data for active facilities. Previous years' data for facilities that are currently deactivated are not included. Click on the bureau name to see the data for the regions.

	2008			2009			2010			2011		
	Recycled (tons)	Waste (tons)	Waste Diversion	Recycled (tons)	Waste (tons)	Waste Diversion	Recycled (tons)	Waste (tons)	Waste Diversion	Recycled (tons)	Waste (tons)	Waste Diversion
Total	11000616718.417	13075.42	100%	100.604	182.4484	35.54%	4875.2717	8380.8845	36.78%	41.6077	115.188	26.54%
OS	11000000449.79	13066.392	100%	100.116	180.4959	35.68%	1521.4178	48.3845	96.92%	0.486	90.183	0.54%

20

Within the “Reports” tab, there are reports with historical data available. This report compares solid waste data for 2007 through 2010.

To drill down within the bureau, just click on the Bureau name, and on the following screen click on the Region name. You will then be able to see the facility historical data.

Historical Reports

The screenshot shows the 'Sustainable Practices Database' website. At the top left is the U.S. Department of the Interior logo. The main navigation bar includes links for Home, Facility Data, Reports, Bureau Report Generator, Admin, Help, and Logout. The page title is '2010 Reports'. Below the title, there is a sub-header '2010 Reports' and a note: 'Click on the Solid Waste report to print a copy of solid waste report for that facility.' The main content is a table with two columns: 'Facility (Region)' and 'Solid Waste'. The table lists various offices and their corresponding 'Solid Waste Report' links.

Facility (Region)	Solid Waste
Office of the Secretary	
HQ	
District Office	Solid Waste Report
OEPC Albuquerque Regional Office	Solid Waste Report
OEPC Anchorage Regional Office	Solid Waste Report
OEPC Atlanta Regional Office	Solid Waste Report
OEPC Boston Regional Office	Solid Waste Report
OEPC Denver Regional Office	Solid Waste Report
OEPC Headquarters	Solid Waste Report
OEPC Oakland	Solid Waste Report
OEPC Philadelphia	Solid Waste Report
OEPC Portland	Solid Waste Report
Other	Solid Waste Report
Program Office	Solid Waste Report

25

If you clicked on “click here to register” on Login screen, this page will come up. We have added this step to prevent multiple registrations for the same person. When you enter your email here the system will check whether you already have an account. If you already have an account, you will be routed to a page where you can request that your username or a password be sent to you. If you do not have an account, you will be routed to the registration page, which is on the following slide.

The screenshot shows the 'SUSTAINABLE PRACTICES DATABASE' registration page. At the top, there is a navigation bar with 'Home', 'Contact Us', 'Help', and 'Login'. Below this is the 'Registration' section, which includes instructions and a list of password requirements: 'At least 12 characters and no more than 15 characters', 'Contain one upper-case alpha, one lower-case alpha and one numeric character', and 'Contain one special character such as @, \$, or &'. The main form is titled 'USER INFORMATION' and contains several fields: 'Bureau' (a dropdown menu), 'Region' (a dropdown menu), 'Facility' (a dropdown menu), 'First Name', 'Last Name', 'Email' (pre-filled with 'brian_milchek@ios.doi.gov'), 'Phone Number', 'Desired Username' (pre-filled with 'brian_milchek@ios.doi.gov'), 'Password', and 'Verify Password'. A 'Submit' button is located at the bottom of the form. Two callout boxes with arrows point to the password requirements and the dropdown menus. The first callout states: 'It's important to pick a password that follows these 3 rules!'. The second callout states: 'Once you pick your bureau and region, you will be given a list of facility names to pick from here'. The page number '26' is located in the bottom right corner of the screenshot.

This is the screen that appears when you submit an email address that does not already have an account. Enter your information into the form to register for the website. Then click "Submit"

More on Registration

- User name = your email address
- Central office program manager will be notified of new facility user registrations.
- You can register to enter data for more than one facility.
- If you move to a new facility, your central office program manager can update your user profile with your new contact and facility info.

27

Generally, your user name is the same as your email address. You may specify a different user name during the registration process if you like. Please keep a record of that user name for future reference.

Change Password

The screenshot shows the 'Sustainable Practices Database' Admin interface. At the top, there is a navigation bar with links for Home, Facility Data, Reports, Bureau Report Generator, Admin, Help, and Logout. Below this is a 'Site Administration' section containing a table of administrative actions. The 'Update Password' action is highlighted with a large black arrow pointing to it.

Action Item	Description
Update Password	This tool allows user to change their password to access the system.
Approve Solid Waste Management Data	This tool allow admin user to approve Solid Waste data of a facility
Manage User Accounts	This tool allows user to edit or add users to the system. Regional / State program leads should review users registered in their jurisdiction to ensure appropriate personnel are accessing the system.
Change User Password	This tool allow user to change password for existing users.
Manage Facilities List	This tool allows user to edit or add facilities to the system.
Create Email Listing	This tool allows user to create an email listing of all the users in region or bureau.
Listing - Facilities and Contacts	List of contacts associated with facilities
Manage Regions List	This tool allows user to edit or add regions to the system.
Add Notes	Add notes to assist with preparing this report in the future. Future users from your region/bureau will have access to these notes.

28

If you are able to log into the system, you may change your own password by selecting the “Admin” tab and then clicking on “Update Password”

Change Password

Change Password

To update your password, please enter your new password and then confirm it. A valid password must meet the following security standards:

- Be at least 12 characters and no more than 15 characters
- Contain one upper-case alpha, one lower-case alpha, and one numeric character.
- Contain one special character such as @, \$, or &
- The new password can't contain the old password (e.g. the old password can't be 'password' and the new password 'password1').

Password:	<input type="password"/>
Confirm Password:	<input type="password"/>
<input type="button" value="SAVE"/>	

It's important to pick a password that follows these rules!

29

If you click on "Update Password" this screen will appear. Simply type your new password into the fields provided. Then click on "Save" and your password will be changed.

PREVIEW OF SOLID WASTE QUESTIONS

Katie Chiang
Environmental Management Integration Team
Office of Environmental Policy and Compliance

Solid Waste Prevention

Find the name and contact information for your designated Central Office and bureau/office HQ contacts.

Review the Data you submitted for FY11. You may print the FY11 report and refer to it when compiling your FY12 responses.

The screenshot shows the 'Sustainable Practices Database' interface. At the top, there is a navigation bar with 'Home', 'Facility Data', 'Reports', 'Bureau Report Generator', 'Admin', 'Help', and 'Logout'. Below this, the page title is 'SOLID WASTE MANAGEMENT' and the facility name is 'OEPC Albuquerque Regional Office'. The main content area is titled 'A. Solid Waste Prevention' and contains a series of questions with radio button options for 'Yes' and 'No'. The questions are: 1) Is your facility in leased space? 1a) Is your facility in leased space within a multi-tenant building? 2) Does your facility have an active office products recycling program? 3) Does your facility have housing units? 3a) If applicable, how many residential housing units operated by your facility have access to an active household products recycling program? Below the questions, there are input fields for 'units of' and 'total units', and a note that the database will calculate the percentage based on the number of units provided. The final question is 4) Did your facility institute new, substantially improved, or updated non-hazardous solid waste prevention practices in FY 2012? For additional information on solid waste prevention please go to: http://www.epa.gov/Region7/waste/solidwaste/reduce_waste.htm. Below this question is a text area for 'If yes, explain (255 characters max):'. On the left side of the interface, there is a sidebar with 'USEFUL LINKS' including 'Facility Notes', 'Bureau Contacts', and '2011 Solid Waste Data'. The '2011 Solid Waste Data' link is highlighted with a grey background.

34

When you click on the "Facility Data" this is the screen you will see. You can see from the tabs and menubar that we are in the "Solid Waste Management" section, and the "Solid Waste Prevention" page.

You can click on the link on the lower left to see your facility's 2011 data. The data have been locked and cannot be changed.

The questions shown here are pretty straight-forward, just indicated whether your facility (1) is in leased space, (2) has a recycling program, (3) has housing units.

Solid Waste Prevention (cont'd)

4) Did your facility institute new, substantially improved, or updated non-hazardous solid waste prevention practices in FY 2012? For additional information on solid waste prevention please go to http://www.epa.gov/region7/wastetools/whatsnew/waste_tsm

Yes No

If yes, explain (255 characters max):

5) Does your facility compost any of its waste (either onsite or offsite)?

Yes No

If yes, select the type of composting: [Select]

If you collect compostable materials at your site and send them to a commercial composting facility, select "white composting." If you collect compostable materials and compost them onsite, select "on-site composting."

6) Did your facility have any demolition projects during FY 2012?

Yes No

6a) If yes, how many demolition projects managed by and/or conducted at your facility include the recovery of construction materials?

[] demolition projects of [] total demolition projects in FY 2012

The database will calculate the percentage based on the number of units you provide here.

7) Within FY 2012 contracts for your facility, did any specifications include a requirement for Waste Reduction Plans (FAR Clause 52.223-10) in demolition, construction, and service contracts to achieve waste diversion goals? Provide specific examples.

Yes No Not Applicable

8) What is your facility's goal for solid waste diversion by 2015?

DOH Waste Division's goal is 50% by 2015.

Please input only numbers. []

9) Do you have onsite waste disposal, such as a landfill, at your facility? Please answer "yes" if your facility has a permitted landfill that was in operation anytime between 1980 and today.

Yes No

SAVE

U.S. Department of the Interior
Office of Policy Management and Budget
Last updated: November 13, 2012
This site has been optimized for Internet Explorer 7

Save partially-complete or complete survey data by clicking on the "SAVE" button at the bottom of each page before navigating elsewhere.

If you do not click on "SAVE" your data will be lost!

35

Note that there are links to hints and helpful information for answering the questions, such as links to “non-hazardous solid waste prevention practices” and “recovery of construction materials”

Note that for question #5, the question on composting, re-use of materials onsite such as mulch or grasscycling in landscaping is not composting. To count as composting, material must be decomposed in some manner before it is re-applied to landscaping.

For question #9, we are asking whether you have an onsite landfill. If you do, you must also answer question #9a and provide the amount of waste disposed of ONSITE during FY 2012.

When you are done entering data on this page, click “SAVE” – THIS IS CRITICAL, YOUR DATA WILL NOT BE SAVED UNTIL YOU CLICK THE “SAVE” BUTTON

36

Under "Recycling" click on the commodities that your facility recycled during FY 2012. Then click "SAVE".

Recycling (cont'd)

Facility: OEPC Albuquerque Regional Office

B. Recycling

Note: You must click on "SAVE" below or your data will be lost.

Please input the actual or estimated weight or volume of the total amount of each commodity recycled during FY 2012 at your facility. There are volume to weight conversions programmed into the system for most commodities.

- EPA published standard volume to weight conversion factors.
- Conversion Factors used in this data call.

Conversion factors used are available through these links.

Select Recycled C&D Waste only for items recycled as the result of construction and demolition projects.

- C&D waste = construction and demolition waste.
- Ton = 2,000 pounds
- Metric Ton = 1,000 kilograms = approximately 2,205 pounds

Commodity	Amount Recycled	Unit	Compacted/Not	Type of Recycling
Other:	<input type="text"/>	lbs	compacted	Select
Antifreeze:	<input type="text" value="100.000"/>	lbs		Select Composted Recycled C&D Waste
Manure:	<input type="text" value="50.000"/>	lbs		Other Recycling Composted

Select the Type of Recycling here to avoid receiving an error later on

37

For each commodity that you selected on the previous page, you will be asked to enter the amount recycled. You may enter the amounts in a variety of units, as shown here, but they will be automatically converted to tons for the final report.

You must enter the amount recycled, there are some options for units you can use such as tons, pounds, cubic yards, etc.

Under "type of recycling" you must enter whether the recycled waste is recycled construction and demolition waste (C&D waste), composted, or other recycling. Other recycling is generally recycled municipal solid waste.

Click "SAVE" when you've entered all of your data for the commodities recycled.

Recycling Data Tips

- **Check your units** – 100 tons of paper = 200,000 pounds of paper, which is a lot of paper.
- **Check estimates of amounts recycled** - One facility reported 200,000 cys paper recycled, this is equivalent to 75,000,000 pounds. Please do not over estimate.
- **Be careful with decimals and zeros** - extra zeros can greatly increase your recycling amounts.

Recycling (cont'd)

The screenshot displays the 'Sustainable Practices Database' interface. At the top left is the U.S. Department of the Interior logo with the text 'U.S. DEPARTMENT OF THE INTERIOR' and 'MARCH 3, 1849'. The main header reads 'SUSTAINABLE PRACTICES DATABASE'. Below this is a navigation bar with links: Home, Facility Data, Reports, Bureau Report Generator, Admin, Help, and Logout. The breadcrumb trail shows 'Home > Facility Data > Solid Waste Management >'. The main content area is titled 'SOLID WASTE MANAGEMENT' and 'Facility: OEPC Albuquerque Regional Office'. A sidebar on the left contains buttons for 'Solid Waste Prevention', 'Recycling', 'Waste Disposal', 'Toxics and Hazardous Chemicals Management', 'Forward Solid Waste Data', 'Print Solid Waste Data', and 'USEFUL LINKS' (with sub-links for 'Facility Notes', 'Bureau Contacts', and '2011 Solid Waste Data'). The main content area shows 'B. Commodities Recycling' and provides a summary for FY 2012: '100 lbs of Uncompacted Antifreeze - Other Recycling = 100,000 lbs' and '50 lbs of Uncompacted Manure - Composted = 50,000 lbs'. It also lists totals: 'Total: 150 lbs = 0.075 tons', 'Total Composted Recycling: 50 lbs = 0.025 tons', 'Total C&D Recycling: 0 lbs = 0.000 tons', and 'Total Other Recycling: 100 lbs = 0.050 tons'. A message states 'The Recycling data has been saved for this facility.' and 'Please proceed to Solid Waste Management: Waste Disposal' with a left-pointing arrow.

39

After you've entered information for your commodities recycled, you will see a summary of the data you entered for those commodities.

After reviewing the data, click on the link to proceed to the "Waste Disposal" section of the report.

Waste Disposal

Bureau Report Generator Admin Help Logout

Facility: OEPC Albuquerque Regional Office

C. Waste Disposal

Note: You must click on "SAVE" below or your data will be lost.

Please input only numbers. You can input 0 if you do not have any of these types of waste.

Type of Waste	Amount	Unit
Construction and Demolition Waste Sent to Landfill or Waste-to-Energy (C&D Waste) • Total amount of construction & demolition waste sent for disposal in FY 12. • Do not include any materials recycled. • Include amounts of waste resulting from natural resource management activities such as illegal dumping clean-ups, storm debris clean-ups, river debris clean-ups for hydroelectric dams, and habitat restoration projects.	10.0000	lbs
All Other Trash (Municipal Solid Waste) sent to Landfill • Total amount of waste sent to landfill during FY 12. • Do not include C & D waste reported above. • Do not include any materials recycled. • Do not include trash sent to a waste-to-energy facility. • Include trash sent to a waste incinerator that is not a waste-to-energy facility. • Include trash amount here if you are not sure what type of facility it goes to.	100.0000	lbs
All Other Trash (Municipal Solid Waste) sent to Waste-to-Energy • Total amount of waste sent to Waste-to-Energy facility, or waste combusted to be burned for energy. Include trash that was not recycled and was sent to a waste-to-energy facility. • Do not include C & D waste reported above. • Do not include any materials recycled. • Do not include trash sent to a waste incinerator that is not a waste-to-energy facility.	10.0000	lbs

Need help estimating waste amount?
Guidance on waste-to-energy data

Provide comments here about your waste reported, if any

40

In the Waste Disposal section you will be asked about the total amount of waste disposed and not recycled.

Do not include any amounts recycled on this page.

Report amounts for:

- Construction and demolition waste not recycled
- Municipal solid waste sent to the landfill and not recycled
- Waste sent to waste-to-energy facilities

Click on "Need help estimating waste amount?" if you need assistance.

Also please note that any waste burned for energy is not considered to be diverted waste. You may still report the amount burned for energy here. Please see the linked Guidance on Waste-to-Energy Data.

Waste Disposal (cont'd)

The screenshot displays the 'Sustainable Practices Database' interface. At the top, there is a navigation bar with links for Home, Facility Data, Reports, Bureau Report Generator, Admin, Help, and Logout. Below this, the breadcrumb trail reads 'Home > Facility Data > Solid Waste Management >'. The main content area is titled 'SOLID WASTE MANAGEMENT' and 'Facility: OEPC Albuquerque Regional Office'. A sidebar on the left contains buttons for 'Solid Waste Prevention', 'Recycling', 'Waste Disposal', 'Toxics and Hazardous Chemicals Management', 'Forward Solid Waste Data', 'Print Solid Waste Data', 'USEFUL LINKS', 'Facility Notes', 'Bureau Contacts', and '2011 Solid Waste Data'. The 'Waste Disposal' section is active, showing a table with the following data:

Category	Undiverted Waste (tons)	Recycled (tons)	Diversion rate
Construction & Demolition	0.005	0.000	0.00%
Municipal	0.055	0.075	57.69%
Total	0.06	0.075	55.56%

Below the table, there is a note: '*The formula for calculating waste diversion is: Recycled materials / Recycled materials + Trash'. A 'Greenhouse Gas Emissions' section states: 'Your undiverted municipal solid waste has resulted in approximately **0.040161 MT CO₂e** (metric tonne carbon dioxide equivalent) in greenhouse gas emissions. *Greenhouse Gas Emissions amount = short tons of undiverted municipal waste x 0.7302 MTCO₂e/short ton'. At the bottom, it notes: 'Department Waste Diversion Goal: 50% or more by FY 2015. Your facility has met or exceeded the Department's goal. Guidance on how to enhance your Waste Diversion and Recycling Program. State Waste Diversion Goal: 50.00 %. You have met or exceeded your State's waste diversion goal. *Note: Recent changes to State waste diversion goals may not be accurately reflected here.' A footer link reads 'Please proceed to Solid Waste Management: Toxics and Hazardous Chemicals Management'.

41

Once you have entered and saved all of your data for Recycling, you will see this screen. Note that there are additional links providing information on how to enhance your waste diversion and recycling program and about recycling goals. Click on the link at the bottom to "Proceed to Solid Waste Management: Toxics and Hazardous Chemicals Management."

Data Entry Guidelines

- Facilities must provide data for undiverted waste in addition to what was recycled for both municipal solid waste and construction and demolition (C&D waste).
- Undiverted waste is the amount that went to the landfill and/or waste-to-energy (WTE) facilities.
- Facilities reporting only amounts recycled and a 100% recycling rate will be asked to explain why they have such a high recycling rate.
- Report amounts of biomass/wood chips burned onsite for heat or electricity as WTE if wood would have otherwise gone to a landfill
- Even if waste disposal is free, the amount disposed of should be reported.
- Please do not double count. If a quantity of a commodity is reported as recycled, that quantity should not be included in the landfill or waste-to-energy amounts.

Toxics And Hazardous Chemicals Management

The screenshot displays the 'Sustainable Practices Database' interface. At the top, there is a navigation bar with links for Home, Facility Data, Reports, Bureau Report Generator, Admin, Help, and Logout. Below this, a breadcrumb trail reads 'Home > Facility Data > Solid Waste Management >'. The main content area is titled 'Facility: OEPC Albuquerque Regional Office' and 'Toxics And Hazardous Chemicals Management'. A sidebar on the left contains a 'SOLID WASTE MANAGEMENT' menu with options: Solid Waste Prevention, Recycling, Waste Disposal, Toxics and Hazardous Chemicals Management (selected), Forward Solid Waste Data, and Print Solid Waste Data. Below this is a 'USEFUL LINKS' section with 'Facility Notes', 'Bureau Contacts', and '2011 Solid Waste Data'. The main form area includes a 'Note: You must click on "SAVE" below or your data will be lost.' followed by a numbered instruction: '1) Briefly describe what your facility has done to reduce the purchase of toxic and hazardous chemicals. Do not report quantitative information (volume or dollars) on chemicals or chemical-containing products purchased or reduced.' A text input field contains the text: 'We have implemented a plan to replace mercury thermometers with non-mercury alternatives.' A 'SAVE' button is located at the bottom right of the form.

43

This is the page to enter information on your facility's efforts to reduce the purchase, use and disposal of toxic and hazardous chemicals. Enter your narrative information and click "SAVE."

Facility: OEPC Albuquerque Regional Office

Summary: Solid Waste Management **PRINT**

Click on the PRINT button to print the report.

A. Solid Waste Prevention

- 1) Is your facility in leased space?

- 1a) Is your facility in leased space within a multi-tenant building?

- 2) Does your facility have an active office products recycling program?

- 3) Does your facility have housing units?

- 3a) If applicable, how many residential housing units operated by your facility have access to an active household products recycling program?

units of total units
The database will calculate the percentage based on the number of units you provide here.

- 4) Did your facility institute new, substantially improved, or updated non-hazardous solid waste prevention practices in FY 2012?

If Yes, please explain (255 characters max):

- 5) Does your facility compost any of its waste (either onsite or offsite)?

If yes, select the type of composting.

When you are done entering data, you may print your report here.

Forward Data

The screenshot shows the 'Sustainable Practices Database' interface. At the top left is the logo for the U.S. Department of the Interior, Bureau of Land Management, dated March 3, 1849. The main header reads 'SUSTAINABLE PRACTICES DATABASE'. Below this is a navigation menu with links: Home, Facility Data, Reports, Bureau Report Generator, Admin, Help, and Logout. The breadcrumb trail indicates the current location: Home > Facility Data > Solid Waste Management >. The page is titled 'Facility: OEPC Albuquerque Regional Office'. Under the 'SOLID WASTE MANAGEMENT' section, there are buttons for Solid Waste Prevention, Recycling, Waste Disposal, Toxics and Hazardous Chemicals Management, Forward Solid Waste Data, and Print Solid Waste Data. A 'USEFUL LINKS' section contains buttons for Facility Notes, Bureau Contacts, and 2011 Solid Waste Data. A message states: 'The Toxics And Hazardous Chemicals Management data has been saved for this facility. Please proceed to Solid Waste Management: Forward Solid Waste Data'. A grey callout box with an arrow points to the 'Forward Solid Waste Data' button, containing the text: 'Click here for your report to be forwarded to the regional, state or area office'. The number '47' is located in the bottom right corner of the screenshot area.

When you have completed entering the data for Solid Waste Management or Green Purchasing, you must “Forward Solid Waste Data” before it is sent to the Central Office for approval.

System Checks

Facility: District Office

Forward Solid Waste Management Data

Your data is complete but...

The total recycled amount for your facility is at least 10 times greater than the FY 2011 recycled amount.

The total trash amount for your facility is at least 10 times greater than the FY 2011 trash amount.

The total recycled amount for your facility is at least 1000 tons more than FY 2011 recycled amount.

Please verify the data you've entered and/or provide an explanation here.

Please select reason/s:

- Facility Expanded Recycling/Composting
- Facility Started New Recycling/Composting
- Facility had a singular event that increased/decreased quantities
- Disposal increase/decrease was due to changes in Visitation
- Usage or Temporary Facility Closure
- Improved Tracking
- Weighing Trash instead of Volume Estimates
- Added New Materials to Recycling Program

Please explain:

More accurate tracking

• The system checks for data completeness and consistency when you click on "Forward Solid Waste Data"

• Errors like the one shown here appear when:

- Recycling is 10 times or greater than last year's amount

- Recycling is less than 10% of last year's amount

- Greater than 50 ton variation in trash or recycled amount if total waste is 100 tons or less.

- Non-diverted waste is 10 times or greater than last year's amount

- Non-diverted waste is 10% or less of last year's amount

- Greater than 1,000 ton variation in trash or recycled amount

- Recycling rate is 100%

• You must either correct your data or provide an explanation when you receive this error.

Forward Solid Waste Management Data

Your data on Solid Waste Management Data is not complete yet. Please enter all the data and then finalize it. Please complete the following data:

The data on the Recycling Program / Solid Waste Prevention is not complete.

- Explanation on new, substantially improved, or updated solid waste prevention practices (Solid Waste Prevention #4).
- Explanation on Requirement for Waste Reduction Plans. (Solid Waste Prevention #7)

- These errors show that we have not entered all of the required data.
- We must complete these entries prior to forwarding our data.

49

If your data are not complete when they are finalized, a screen will appear to tell you what information is missing and must be completed before it can be finalized. You must enter this data before it can be submitted to your Central Office.

If you have completed all of the information required by the Sustainable Practices Database, you will see this screen when you click on "Finalize Data". Click on the box to forward your data, and then click on "Continue" for your data to be forwarded to the Central Office for approval. Your Central Office manager will receive an email notifying them that your report has been finalized.

Once you have finalized your data, the facility user will not be able to edit it. If you discover an error, contact your Central Office to return the data to you so that you can make the change. If data is returned and sent back to you, you must finalize the report after you make your changes so that the Central Office will be notified you have made your changes.

You will receive an email if your Central Office returns your report to you for changes.

Central Office Data Review

At this stage:

- If edits or clarification are necessary the Central Office program reviewer sends report back to Facility User.

- Then the Facility User makes changes and re-finalizes the data, sending the report back to the Central Office.

-If no changes are needed, the Central Office User can forward data to the Bureau HQ User

51

Once the Central office receives the data, the Central Office may decide that there is a problem with the facility data that must be corrected before it can be forwarded on to the bureau or office HQ level for approval. If there is a problem with facility data, the Central Office User may send the data back to the facility user for correction by “Unapproving” or “Returning” it.

If the Central Office sees that the data for its facilities are ready to be forwarded on to the Bureau HQ level, the Central User may then forward the data on. For more information on this process, please see the Powerpoint presentation for Central Office Users.
